

PRO A331 DTF PRINTER

Hanrun paper®

Hoson board card
13200 original heads

Larger cartridge
efficient printing

Perfect ink compatibility

Integrated film
placement frame

With the passage of time, DTF printing technology is gradually becoming mature. Hanrun Paper's technical team is also in continuous research and development to optimize our original Pro-A330 DTF printer from a customer perspective. The new machine has been greatly upgraded in terms of operation convenience, operation stability, and multi-function integration, which makes it easier for customers to use and operation.

■ Washing labels; all kinds of socks

■ Fashion clothes

■ Personalized customization

DTF PRO-A331 NEW UPGRADE

1

The PRO-A330 only has heating before printing, while the PRO-A331 has heating on the printing platform and the feeding platform, so the A331 can print pictures with higher ink volume.

2

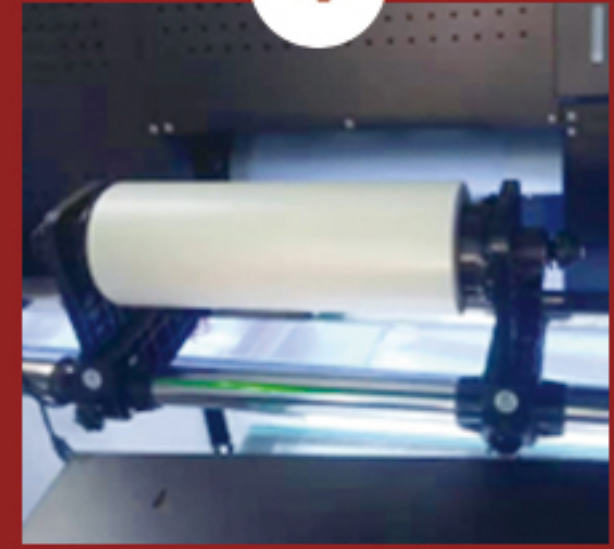

The cartridge capacity of PRO-A330 is 250ml for color ink and 500ml for white ink, while the capacity of all cartridges of PRO-A331 is 500ml.

3

The covers on both sides of PRO-A330 are one-piece, while the two sides of PRO-A331 are switch-type, which is more convenient for inspection and maintenance.

4

The Pro-A330 film feeder is fixed on the desktop, while the PRO-A331 film feeder is connected with the printer for more accurate alignment.

DTF PRO-A331 PRINTER

Printhead	2 heads EPSON i3200/2 EPSON XP600	
Print Resolution/Speed	i3200 4pass(720*1200dpi): 10m ² /h 6pass(720*1800dpi): 6m ² /h 8pass(720*2400dpi): 4m ² /h XP600 4pass(720*1200dpi): 7.5m ² /h 6pass(720*1800dpi): 5m ² /h 8pass(720*2400dpi): 3.8m ² /h	
Ink	DTF InK (CMYK+W)	
Media	Max Width	350mm
	Max Roll Weight	30KG
	Thickness	0.1mm to 2mm adjustable
	Sort	A3/A4/330mm width DTF Transfer Film
Media Heater	Middle and back two stages of heating	
Media Take-up Device	Double motor automatic media take-up device	
Drying System	Infrared Ray Drying System	
Guide Rail	Famous Brand: THK From Japan	
RIP Software	Maintop	
Language	Chinese/English	
Voltage	Standard AC 220V±10 %, 50/60±1Hz, optional 110V±10 %, 50/60±1Hz	
Power	0.8KW (w/o Heater)	
Working environment	Temperature: 20°C-35°C, Humidity: 35%RH-65%RH	
Dimensions of Printer	L985* W510* H520mm	
Dimensions of Packing	L1080* W810 * H610mm	
Net weight	60kg	

POWDER SHAKER B301

Model	B301	
Match model	A331 2-head DTF printer	
Temperature control scope	0-170°C	
Speed regulation range	Synchronize with printer speed	
Maximum heating pipe power	2.4KW	
Medium width	0-300mm	
Method of transmission	Conductor traction	
Automatic volume collection	√	
Air suction device	x	
Upper powder device	Top manual powder direction and powder amount automatically control	
Refer to powder device	Bottom powder box, need manual powder return	
Input voltage	AC220V/110V 60/50Hz	
Power	3KW	
Consumption	Energy consumption 1-2.3KW	
Work environment	15-30°C 45-65%RH	
Powder shaker Dimensions	L850*W650*H600mm	
Net weight	40kg	

SMOKE PURIFIER P002

Model	P002	
Input	AC220V 50Hz	
Air	280m ³	
Net filtration	280m ³	
Net filtration	0.3pm>99%	
Noise	<45DB	
Power	<45DB	
Product size	448*248*490mm	
Packaging size	540*370*650mm	
Weight	18KG
